HOPKINSVILLE, KENTUCKY, TUESDAY, NOVEMBER 24, 1908.

No. 141.

J. B. CHILTON IN CHAIRMAN

County Committee Meets
For Organization.

JOE. E. MOSELEY, SEC.

Members Were Elected In
Precinct Meetings
Last Saturday.

The election of County Committee for the Democratic party organization was held in the precincts of the county Saturday at two o'clock. There were but few contests and the attendance was small.

In only 7 precincts were the old committeemen re-elected, as many of them were ineligible by reason of holding offices of one kind or another.

In the city the six precincts held with no contests. J. D. Higgins, Hunter Wood, Jr. and D. D. Cayce were re-elected unanimously. In No. 3 there was a vacancy and Jno. W. Richards was elected, received all four of the thirty or forty votes present. In No. 5 Judge L. T. Brasher was ineligible for re-election and Crit Anderson was agreed upon by all hands in advance and had no opposition. In No. 4 Councilman L. H. Davis was also ineligible for re-election and his precinct agreed upon C.W. (June) Foster, who was elected by acclamation. At Palmyra W. L. Gore was elected by the close vote of 11 to 9 over M. H. Nelson. At Casey J. H. Dillman was elected by two votes.

So far as heard from these were the only contests worthy of note, except that two candidates were voted for at Beverly.

It will be seen by the list below that only seven of the old committeemen were re-elected, those marked with an asterisk.

Following is the complete list:

- District
- 1 *J. D. Higgins
 - 2 *Hunter Wood, Jr.
 - 3 Jno. W. Richards
 - 4 C. W. Foster
 - 5 Crit Anderson
 - 6 *D. D. Cayce

 - 25 Sam Cavanah
 - 26 Amos Robinson
 - 27 W. T. Cavanah
 - 28 J. C. Hight
 - 29 L. L. Nichols
 - 30 W. L. Gore

The Committee met at 2 p. m. yesterday with all precincts represented except Banbridge and Bakers and elected Jno. B. Chilton Chairman. He received 24 votes to 4 received for Capt. J. W. Riley, who was recently appointed jury commissioner by Judge Cook. J. E. Moseley was elected Secretary by acclamation. The retiring officers Jas. West, chairman, and L. H. Davis, Secretary, were given a vote of thanks, and exonerated from blame in the failure to get the candidates on the ballot. Harmony prevailed and the committee will meet again Dec. 7.

Cake Sale.

Auxiliary No. 2 of the First Christian church will have a CAKE SALE Tuesday afternoon from 2 till 4, at Smith Music Co.'s store, Second Avenue East.

NEARLY 30,000,000 POUNDS OF TOBACCO SOLD LOOSE IN GREEN RIVER AND BOWLING GREEN DIST.

Deal at Owensboro Closes Out
20,000,000 Pounds In
Three Counties.

McLEAN SELLS 1,500,000.

Bowling Green 'Sells 4,500-
000 Pounds and Indiana
1,500,000.

Friday and Saturday were red letter days for the tobacco growers. The week began with the sale of 75,000,000 pounds in the Hurley pool and ended with the sale of nearly 30,000,000 in the Western district, embracing the Green River and Bowling Green societies.

The Owensboro sale was the largest and included 20,000,000 pounds in Davies, Hancock, McLean and Breckinridge counties. The sale was to the Imperial Tobacco Co., the American Tobacco Co., the Gallaher Co., Nosworthy & Argue and Thos. Hodge. The prices were \$9, \$8, \$7 and \$6 for leaf and lugs and \$4 for trash, loose delivery at county points. The same day the McLean county Society of Equity sold 1,500,000 pounds to the American Co., at the same prices except \$3 for the trash instead of \$4.

The sale of 4,500,000 pounds at Bowling Green was sent out Sunday and appears in this connection.

The American Society of Equity of Indiana sold to the American to be delivered at Owensboro 1,500,000 pounds at \$9, \$8, \$7, \$6 and \$5 for leaf and lugs and \$3 for trash.

These sales have set the farmers wild with delight and will bring millions of dollars into Western Kentucky at once.

This practically disposes of all of the tobacco in the districts named. It is estimated that not over 7,000,000 pounds is unsold outside of the Burley and Dark districts.

GROWERS ACCEPT BID.

4,500,000 Pounds Bought By
American and Independents.

Bowling Green, Ky., Nov. 23.—Without dissent the local unions of the Warren County Tobacco Growers' Association accepted the bid for the crop of tobacco at the price stipulated of \$9.85¢ and \$6 for the leaf and lugs and \$3 for the trash. The estimated yield for the county is 5,000,000 pounds. About three-fourths will go to the American Tobacco Company and the rest to independent buyers. The sale will bring about \$400,000 to the tobacco growers of Warren, Allen and Barren counties.

JOY REIGNS SUPREME.

Winchester, Home of Society,
Rejoices at Close of Deal.

Winchester, Ky., Nov. 20.—The news of the big tobacco deal in Louisville yesterday caused general rejoicing here. As Winchester is headquarters for the Burley Tobacco Society, there was naturally great interest felt here. The news quickly permeated the whole county and today great numbers of tobacco men were in the city to congratulate each other and the executive board.

Nor was the joy confined to the growers. Merchants, and especially country merchants, had carried their customers until the task had become burdensome and the load a heavy one. In many cases debtors have been unable to pay interest on mortgages as it became due, but through it all there was no faltering or want of loyalty, but a grim determination to carry the fight to the bitter end. The deal means a distribution in

this county of more than \$600,000, of which about one-third is owing to capitalists in other places and the remainder will stay at home. The leaders here have at all times discouraged the selling of certificates and the landlords have helped their tenants to carry their crops. About one-fourth of the crops have liens on them, but most of these liens are for small amounts. Owing to the success that has attended the efforts of the Burley Tobacco Society, men here think the growers, especially those who are in the pool, will be willing to pool the crop of 1909, but no steps in that direction have yet been taken.

ANOTHER BIG SALE.

Burley Disposes of 3,000,000
Pounds to Scotten & Dillon.

An additional \$525,000 will come into Kentucky as the result of a sale said to have been made by the Burley Tobacco Society to Scotten & Dillon, independent manufacturers, of Detroit, of 3,000,000 pounds of tobacco. Other large sales will be made today at Winchester, when the independents will bid on the tobacco offered. All of the tobacco in the hands of the Burley Society, not already disposed of, will be sold, according to an announcement made by the officers of the society.

The impression now is that the growers will raise more tobacco than ever next year, confident that they will be able to demand a good price for the product.

HEAVY SALES

Of The Weed Made Last
Week

The association salesman disposed of 224 hogsheds of tobacco last week, the sales being the largest for several weeks. Some of the heaviest buyers were Buckner & Dunkerson, Louisville; the Italian regie, W. A. Mathews & Co., and the American Snuff Co.

NEW COMMISSIONER.

Mr. R. J. Carothers Appointed
For This District.

Mr. R. J. Carothers, Sr., has been appointed U. S. Commissioner in this district, to succeed Mr. L. Yonts, whose term had expired and who declined to be reappointed.

The first case to come before the new commissioner was that of Mrs. Virna Moore, who is charged with sending obscene letters through the mail to J. H. Boyd. She was held to the Federal grand jury which is now in session at Owensboro, and furnished bond for her appearance.

ANOTHER BOND CALL

The Council met Friday night and among other important matters attended to, called in \$11,000 of the railroad bonds, ahead of maturity, which can be secured at 106.

PECULATION IS CHARGED

Warrant Issued Against C.
E. Booe, of Frankfort, for
Alleged Fraud.

IN OFFICE FOR 8 YEARS.

Accused of Misappropriating
Funds of State to Large
Amount.

Frankfort, Ky., Nov. 21.—A warrant for the arrest of Judge Charles E. Booe, a claim clerk in the department of public accounts, was issued to night upon the charge of misappropriation of funds belonging to the State. The warrant was issued following, it is claimed, the disclosure of evidence that Booe had obtained thousands of dollars of the State's money by padding of witness claims, idiot claims, and other warrants like this character which passed through his hands. Short investigation made by the State Inspector and Examiner M. H. Thatcher shows that peculation has been going on for a number of years, but it is impossible as yet to tell what the amount will be.

Before coming to Frankfort Booe was county judge of Fleming county. The sensation was revealed when suit was filed by Auditor F. P. James in the Franklin circuit court this afternoon seeking to secure \$350 which had been discovered, and which Booe had obtained by padding of warrants, vouchers, etc., since the first of January, when James took charge of the department.

HAS SERVED FOR MANY YEARS.

Booe served four years as assistant auditor under Hager and before that was claim clerk for four years under Auditor Coulter. When confronted with the developments he said at first it must be an error, but as the evidence piled he admitted it looked like he got the money, but said he would pay it back if satisfactory to the officials. He was allowed to go home for lunch and on the way he stopped at a drug store and bought arsenic, which he said was for rats. Friends quickly secured him and took him home and secured the poison and the weapons in the house. A conference of friends was held with Auditor James and assurances given that whatever is due will be made good.

MEANS-PYLE.

Young Couple Married in
City Saturday.

Alfred Means, oldest son of Mr. L. W. Means, and Miss Hettie Pyle, who resided four miles north of the city, were married in this city Saturday. The ceremony was performed by Rev. Geo. H. Means, at the Methodist parsonage, at 6:30 o'clock p. m. The attendants were Mr. R. T. Word, Jr., of Beverly, and Miss Cora Means, sister of the groom. The young people immediately drove to the residence of the groom's parents, where an elegant supper was served. Mr. and Mrs. Means will reside with the groom's parents for the present.

CRABB-ALSOP.

Hopkinsville Boy Marries in
Indiana.

V. W. Crabb, of New Harmony, Ind., youngest brother of Mr. Wharton Crabb, of this city, and Miss Agnes Alsop, of New Harmony, were married one day last week. The groom was reared here and has a host of friends. He has been engaged in business in Indiana for several years.

W. H. Cummings, Jr., is in Clarksville.

THE OPSOIC TEST.

What It Showed the Men Who Smoked a Great Deal.

His friends knew that he would rather miss half an hour of a play than cut short his after dinner cigar, and they were astonished when he announced that he had quit smoking.

"What's the trouble?" he was asked.

"Opsoic test," he replied gloomily.

"What in the world is that?"

"I've been run down of late and feeling pretty blue. As there is consumption in my family, I consulted a specialist. He said I didn't have the disease yet, but he would tell me what my chances were of getting it. We are constantly breathing tuberculosis germs, he explained, but healthy blood has the power to destroy them. So he took a drop of my blood and inoculated it with a certain number of germs. In half an hour he examined it under the microscope and found that only half as many germs had been killed as should have been the case. Normal, healthy blood is said to have an opsocic test of 100, so my test was only 50. He advised me to build up my strength by sanitary living—lots of fresh air day and night; plenty of sleep, wholesome food and moderation in work and pleasure."

"Where does smoking come in?"

"He said that tobacco had an extraordinary effect in decreasing the power of the blood to destroy germs. Some men who smoke a great deal have an opsocic test of from 250 to 2,000. Their blood has no effect whatever on germs. I am fond of my cigar, but when a specialist levels an opsocic test all cooked and primed at your head and says, 'Tobacco or your life,' what are you going to do but throw up your hands?"—New York Tribune.

DESOLATION ISLAND.

Kerguelen Land is a Region of Perpetual Storms.

Of all places on earth outside the arctic and antarctic regions Kerguelen Land, in the Indian ocean, is the most isolated and inhospitable. Indeed, it is generally known to mariners not by its official title, but as Desolation Island.

Most nations have owned it by turns, but it has been sooner or later abandoned by them all as worthless, and this although it covers an area variously estimated at from 1500 to 2,000 square miles. At present France is in nominal possession of it, she having annexed it in 1830.

The soil is utterly barren. Practically the whole of the interior is covered with snow fields of unknown depth, whence glaciers flow down to the sea. Where there are no snow fields there are mosses and hidden, treacherous mudholes.

The climate is probably the worst in the world. Terrible tempests follow one another practically without ceasing and are accompanied by torrents of ice cold rain, hail, sleet and snow. The Challenger expedition spent a month there, during which time there were only three fine days. And this was in December-January, when it is mid summer in those latitudes.

Its discoverer, M. Kerguelen Tremarec, although at first he loved to confess that it was unfit for human habitation. "Not even Eskimos," he exclaimed. "could exist there."—Pearson's.

Too Cheap.

The class at Kirk had been reading the story of Joseph and his brethren, and it came to the turn of the visiting minister to examine the boys.

The replies to all of his questions had been quick, intelligent and correct, such as:

"What great crime did these sons of Jacob commit?"

"They sold their brother Joseph."

"Quite correct. And for how much?"

"Twenty pieces of silver."

"And what added to the cruelty and wickedness of these bad brothers?"

A pause.

"What made their treachery even more detestable and heinous?"

Then a bright little fellow stretched out an eager hand.

"Well, my man?"

"Please, sir, they sold him over cheap."

Very Nearly True.

"Horace, you don't love me as you used to."

"Not altogether, my dear. When we were first married I loved you for your beauty. Now I love you for your mind, your many excellencies of mind and heart and for your—"

"So, Horace, I guess you think I've got entirely over my good looks, do you? Let me tell you, sir—"

"Add for your unfeeling sweetness of disposition, my dear."

Uncertain whether to go ahead and scold him just the same or to indulge in a good cry, she compromised by doing neither and felt to darning his socks with renewed energy.

A Conundrum.

Little Flora—Mamma, you ain't a girl, are you? Mamma—Certainly not, my dear. I'm a woman. Little Flora—But you were a little girl, weren't you? Mamma—Oh, yes, years ago. Little Flora—Well, where is the little girl now that you used to be?—Chicago News.

Steam.

"Can you tell me what steam is?" asked the examiner.

"Why, sure, sir," replied Patrick confidently. "Steam is—why—er—it's water that's gone crazy wid the heat."—Everybody's.

One may dominate moral sufferings only by labor. Study saves from discouragement.—D'Abrantes.

HEARINGS POSTPONED.

Obion County Cases Continued Until December 2.

Nashville, Tenn., Nov. 20.—Judge Matthews, of the First Circuit Court, before whom was argued the application for release on bail of nine alleged members of the night riders of Obion county, the band charged with complicity in the murder of Capt. Quinten Rankin and the attempted murder of Col. R. Z. Taylor at Walnut Log and other crimes, continued the hearing until December 2, when testimony will be heard for and against the petitioners. More than one hundred witnesses will be summoned.

The special term of the Obion County Circuit Court will begin on December 7, and the cases of the night riders will be taken up without delay.

ACT QUICKLY.

Delay Has Been Dangerous In Hopkinsville.

Do the right thing at the right time.

Act quickly in times of danger. Backache is kidney danger. Doan's Kidney Pills act quick.

Cure all distressing, dangerous kidney ills.

Plenty of evidence to prove this. F. M. Hall, Cadiz, Ky., says: "I used Doan's Kidney Pills and was pleased with the result derived. For six years my kidneys did not do their work properly. I had severe pains in the small of my back and whenever I stooped or lifted, sharp twinges would cause me great misery. At night my back ached considerably and mornings when first arising, would be very lame. I became tired easily and became very dull and languid. Dizzy spells also caused me much annoyance. And at times blurred my eyesight. The passages of the kidney secretions were too frequent and at times I was forced to rise during the night on this account. Whenever I caught cold, it settled on my kidneys and caused me to suffer more intensely. I recently procured Doan's Kidney Pills and although I have used but the contents of one box, I have received great relief. I can recommend Doan's Kidney Pills as a remedy that is up to representations."

Plenty more proof like this from Hopkinsville people. Call at L. A. Johnson & Co.'s drug store and ask what their customers report.

For Ladies Wine of Cardui

Great suffering is the lot of all women, who neglect the health of their womanly organs. No reason to do so, any more than to neglect a sore throat, colic, or any other disease, that the right kind of medicine will cure. Take

for all your womanly ills. It can never do harm, and is certain to do good.

Mrs. Sallie H. Blair, of Johnson City, Tenn., writes: "I had suffered from womanly troubles for sixteen months, and had four doctors, but they could not help me, until I began to take Wine of Cardui. Now I think I am about well."

POSTHUMOUS SON.

Will Inherit Title and Estate of French Nobleman.

Duchess de Chaulnes, who was Miss Theodora Shonts, gave birth to a son Nov. 16. She is a daughter of the American railway magnate and was married Feb. 15. The Duke died suddenly April 23. Mr. Shonts stated that he was stricken while he and his wife knelt in prayer by their bedside. The mother of the Duchess has been with her since spring, and is still with her. The birth of a male heir means that the dual title and estate of the Chaulnes family will descend to the child. Had this child been a daughter they had been gone to the family of Duc de Luynes.

IMPROVED PIPE WRENCH.

Simplicity of Construction a Feature of Useful Tool.

The wrench illustrated herewith is formed with a slidable jaw, which enables it to grip round surfaces. No retaining pins or other detachable retaining devices are used, and an efficient pipe wrench is thus provided with few loose parts. Formed on the main body of the wrench is a fixed jaw, B. Detachable into opposite sides of the body are a pair of detachable

rack, C, which are adapted to mesh with the thread of the nut D. This nut is fitted in a frame, E, which is mounted to slide along the body or shank of the wrench. The frame E is extended at one side, and in the inclined upper face of this extension an undercut guideway is formed adapted to receive the slidable jaw F. A spring pressed pin in jaw G bears against the shank A and holds the jaw in its outermost position. In use the nut D is adjusted to close the jaws on to the work and then, when the wrench is operated, the sliding jaw moved inward, jamming the work against the upper jaw. Fig. 2 shows a cross sectional view of the mechanism. Mr. Harvey N. Rutledge of Seattle, Wash., is the inventor of this improved pipe wrench.

PIPE WRENCH.

Self Defense as Practiced by Various Forms of Vegetation.

Plants are said to protect themselves much the same as do insects. One of the uses of the sensitive plant is to frighten troublesome animals. A vulture, browsing creature coming too near is evidently afraid to touch a plant so decidedly aggressive.

The squirting cucumber of the Mediterranean alarms goats and cattle by discharging its ripe fruits explosively in their faces the moment the stem is touched. The cucumbers contain a pungent juice that discharges itself into the eye of its opponent, and the resultant smarting sensation is difficult of endurance.

The deadly grass of Parnassus is beautiful, but dishonest. It is a bog herb and has glossy green leaves and pure white blossoms and is supposed to be the poet's flower. Within its white flowers lurk the elements of deception, for the drops of honey that the bees and insects fancy they see inside the petals are in reality solid sticky imitations of the real thing. The flower fools the bee in this way so that it may carry the pollen to other blossoms, where its kind may be perpetuated.

A New Life Saving Appliance.

Captain G. K. Gandy, R. N. R., is responsible for a useful adjunct to the accepted life saving appliances required by the English board of trade. He has utilized the ordinary canvas cover of a ship's boat so as to form a buoyant raft, by the introduction of cork and bamboo cane. This additional element of buoyancy occupies no more room and adds very little weight to the customary equipment of a ship's boat and possesses the material advantage of being in the most natural and convenient place on a vessel for use when occasion arises. To lower a boat its cover must be removed for the operation, and in the case of the buoyant cover it can be either laid aside or thrown overboard and, being attached by a line, is there about ready for emergency. The idea has evidently been well considered. The admiralty has recognized its advantages, the makers having just completed an extensive order for the dockyards.

Poisonous Nettles of the Tropics.

In tropical regions there are nettles far more powerful than that of our own country. The one called Urtica stinguans, which is found in Java, and that called Laportea crenulata, found in Hindustan, when brushed emit an effluvia which poisonous effect the eyes and mouth and if handled produce convulsions and serious swelling and pain in the arms, which may last for three or four weeks and in some cases cause death.

Mud in Better Than Glass.

The use of mud in windows instead of glass in dairy construction is said to help materially in the fight against tuberculosis.

MUST GO TO PRISON.

Sentence Pronounced on Magness Approved by Secretary Metcalfe.

Washington, Nov. 19.—Having been adjudged guilty of desertion from the navy by a court-martial at Philadelphia, Secretary Metcalfe today approved the sentence in the case of Charles J. Hartlove, musician, first class (alias C. J. Magness), who left the service in order to marry the daughter of the late Senator Arthur P. Gorman, of Maryland.

The punishment to be meted out to the young man is imprisonment for one year at the naval prison, Portsmouth, N. H., at the end of which he is to be dishonorably discharged. He is to perform police duties during his confinement, and to forfeit all pay except a small sum for necessary prison expenses. By good behavior Magness may reduce his actual servitude to eight months.

The plea put up by Magness' counsel was that Magness "was in a state of mind that night that might be called delirium of anticipation of his honeymoon."

It is said that Mrs. Magness has returned to Louisville and will make her home there while her husband is serving his sentence.

TOM WILSON

Said to Have Been Rankin's Hangman, Dies of Chills.

Nashville, Tenn., Nov. 19.—Tom Wilson, 46 years old, one of the alleged Redfoot Lake night riders in the Davidson county jail, and hangman of Capt. Rankin, according to Frank Ferriner's confession, died at the city hospital Wednesday night, after suffering with congestive chills. He made no statement before he died, it is said.

Apparently healthy and hardy, Wilson was in court Tuesday as one of the prisoners whose release was sought by habeas corpus. Return to his cell, he ate a hearty meal, including much cabbage, and Tuesday night he became ill and complained to his fellows of being chilly. He was taken to the hospital, where all possible aid was administered, but without avail. He died at 6:20 o'clock.

"I suffered habitually from constipation. Doan's Regulets relieved and strengthened the bowels, so that they have been regular ever since."

AN ACCURATE CLOCK.

The Timepiece in the Observatory of Columbia University.

In the observatory of Columbia University is one of the most accurate clocks in the world. It has run for several months with a mean error of only fifteen-thousandths of a second and a maximum error of thirty-thousandths of a second per day. That means that it does not vary more than half a second a month, or six seconds a year.

Compare this with the first pocket timepiece, the "balanced egg" of Nuremberg, which required winding twice a day and varied an hour and a half in the same time! Compare it with some of the highest priced watches manufactured today, which often vary more than ten seconds a week, and you will have some idea of the refinements in the science of measuring time. Yet even this accuracy is surpassed by some famous timepieces. If the trade magazines are to be believed, there have been occasions in them of clocks or watches that have varied less than a second in periods as long as ten years.

The clock at the University of Columbia is an astronomical clock. It is surrounded by a glass case in which a partial vacuum is maintained, and in order that the case may not be opened or disturbed the winding is done automatically by electricity. The clock is set up in a room especially constructed to keep it free from jar or vibration. The temperature and barometric conditions are maintained practically constant, and every possible precaution is taken to minimize the errors of the running mechanism—New York World.

IT CLEANS THE SHIPS.

Sailing Through a Volcano Crater in the Aegean Sea.

In the Aegean sea a vessel may sail into the top of a crater, and though it is hard to find anchorage there, yet a mere sail through is appreciated greatly by captains, because it cleanses the bottom of the ships from marine growth.

More than 2,000 years ago the tale of Santorin was split in half by an earthquake, with the result that what was once the crater of a volcano is now a crescent shaped harbor. Two glistening white towns of Thera and St. Nicholas are perched on the summit of the steep cliffs, whose dark and dismal hue is similar to that of the top of Vesuvius. Standing out against the sky are large numbers of windmills, with many sails, arranged in a perfect circle. These are evidently employed for crushing the olives, which, along with the terraced vines, are the staple product of the island. The Santorin wine is of excellent quality and is highly appreciated in the Levant.

Between the main island on the east and the smaller, Thera, on the west are the three small Kaunaste islands, all of which have come into existence since the original earthquake, while the largest of the three was "born from the sea" less than 200 years ago, showing that the center of the old volcano has still a certain amount of activity. The water in the harbor into which the sulphurous streams from this volcanic island rain has a peculiar property which completely cleans off growths of every kind from the bottom of any ship.

"Real Sporty" Woodsmen.

The chief recreation of the woodsmen of the Pinet sound country is to go to town on Saturday nights. As a valley dweller explained: "They've got money, and they just blow it in. There is the longer style of it. There's no place of amusement in the town. They can go to the library and sit down or go to a hotel and sit down, but that don't suit 'em. No, they either get drunk or go to church. Some take in both. I've seen 'em at church pretty well loaded. 'Bout 'leven or twelve o'clock they start for their camp. Mostly they hire a rig and go eight or ten miles to a team. Oh, they're sporty! There's nothing too good for the loggers and, take 'em as a whole, they're the best class of men I ever run up against!"—Clifton Johnson in Outing Magazine.

Etruscan Vases.

The famous Etruscan vases were wrongly named, for, though made in Etruria, they were the productions of Greek genius. They are elegant in form and curiously decorated with beautiful foliage and other ornaments, figures and similar subjects of a highly artistic character. One class has black figures and ornaments on a red ground—the natural color of the clay; another has the figures of the natural color and the ground painted black. The former class belong to a date about 600 B. C., the latter date about a century later, and extend over a period of some 300 or 350 years.—New York American.

Where the Coat Comes In.

"Do you find the cost of living any higher in New York than it was in the little old town?"

"No. Living doesn't cost so much more, but a fellow has to pay a big price to keep from getting lonesome."—Chicago Record-Herald.

-Labor Lost.

"A man kin situs fix up arguments to quiet his conscience," said Uncle Ben, "but 'tain't no use. No matter how much you turn de clock back, sundown gwinter come jes' de same."—Washington Star.

8,909 PLURALITY

Bryan's Vote Over Taft in Kentucky.

Frankfort, Ky., Nov. 20.—Secretary of State Ben L. Bruner late this afternoon received a telegram giving the official vote of Johnson county, which has been the last to report its vote cast in the recent election.

With Johnson county in, the complete tabulation of the vote in the state was made up by Secretary Bruner. It has been most carefully done and added upon adding machines and compared, and will be ready for submission for the official canvass the State Board Monday.

The complete official returns show that Kentucky cast a larger vote in the presidential race than ever counted in the state before. The total vote is 490,223. The first elector on the Democratic ticket received 244,243 votes, and the first elector on the Republican ticket 235,334. This gives Bryan a plurality of 8,909 over Taft in the state. Those who thought that Bryan would receive a "majority" in Kentucky will be disappointed, for although the Democratic candidate has a plurality over his Republican opponent, the combined votes of Republican, Prohibition, Socialist, Socialist Labor, People's party and Independent tickets is 245,980, just 1,737 more votes than the Bryan elector received, and so Bryan failed to receive a majority vote in Kentucky.

The votes for the minor tickets was: Prohibition, 5,866; Socialist, 4,037; Socialist Labor, 342; People's party, 324, and Independent party, 77.

POPULARITY CONTEST

To Enliven the Holidays—
Popular Firm Offers
Two Prizes.

The Smith Music Co., the popular music firm of this city, have inaugurated a popularity contest and it promises to be one that will be interesting in the extreme.

Two prizes are offered for the two most popular young ladies in Christian county, Hopkinsville included. The young lady receiving the largest vote will be awarded a Diamond Ring valued at \$150.00.

The consolation, or second prize, is choice of either an Eastman Kodak or Gold Bracelet, and will be awarded the young lady receiving the second largest vote.

WINTER UNIFORMS

For Troops of Different Color
This Fall.

The members of the Kentucky State Guard who are seeing service in this region have been furnished with their new winter uniforms, but instead of being the regulation blue, as was the case last winter, the uniforms are of olive drab. The cloth has the weight and warmth of the blue, but is liked much better by the soldiers. It was only after a determined requisition by the officers that the new cloth was issued to the soldiers.
